FOR KLIPBOARD MANUFACTURING AND ACCOUNTING

Every currency you trade, side by side.

Your income statement in every currency you trade, side by side, plus the consolidated version in your base currency. Reporting for Klipboard Manufacturing and Accounting (formerly Palladium Accounting), installed on your own server.

HOW A STATEMENT READS · EXAMPLE LAYOUT

Income statement	USD	ZiG	Consolidated (base)
Revenue	your figure	your figure	in base currency
Cost of sales	your figure	your figure	in base currency
Operating expenses	your figure	your figure	in base currency
Profit for the period	**USD**	**ZiG**	**Base currency**

Click any figure to see the journal lines behind it.

IFRS statements by currency

Profit or loss, financial position and cash flow, with USD, ZiG and consolidated columns, or by department or company.

A direct cash flow

Cash in and out, by line, with exchange-rate movements shown on their own line so the closing cash ties.

An executive management pack

Dashboard, charts, 25 live ratios each explained in plain words, liquidity analysis, a 12-month trend and written commentary, in Excel.

Consolidation across companies

Tick the companies, or set up groups, and the program adds them together for you.

Treasury position for the board

Daily liquidity position, or day by day over a period, with the movements explained. PDF and Excel. An add-on: ask us.

Debtors that chase themselves

Reminder letters at the days you choose, to the right person, with promises to pay, holds and a notes thread for every customer.

A VAT reconciliation for every return

Tick each invoice once fiscalised. The return, the sales journal and the fiscalised invoices agree, with every late invoice and its reason listed.

Income tax and QPDs

The tax computation and quarterly payment dates worked out from your figures, with VAT working papers month by month.

YOUR DATA STAYS WITH YOU

Installed on your server. Read-only. Your people only.

Read Insight is not a cloud service. It runs on your own computers and reads your own SQL Server. Your accounting data never leaves your premises and is never sent to us.

Reads, never writes

Your Klipboard company databases are only ever read. Reports are built in a separate reporting database of their own.

Two-step sign-in

Each person uses their own Klipboard username and password plus a code from an authenticator app, and sees only the companies Klipboard allows them.

IT stays in charge

Set-up, email and licence screens are for your IT administrator alone. Every sign-in is recorded.

Updates itself

New versions are signed by us and install on their own. Offices without internet can update from a shared folder.

Running in an afternoon

1. **Install** Read Insight on the server or a workstation.
2. **Connect** to your Klipboard SQL Server and tick your companies.
3. **Register** on the Licence screen: your 14-day demo starts, and you run your first report.

WHAT IT NEEDS

Accounting system	Klipboard Manufacturing and Accounting (formerly Palladium Accounting)
Database	Microsoft SQL Server 2016 SP1 or later
Computers	Windows 10 (1809 or later) or Windows 11, 64-bit, with Microsoft Edge
Paying	In the program, by Paynow (card, EcoCash, OneMoney, InnBucks) or bank transfer. The licence installs itself once payment is confirmed.
